DONGGUAN JIEPU PLASTIC HARDWARE PRODUCTS CO.,LTD

Basic information of the company

Company name	DONGGUAN JIEPU PLASTIC HARDWARE PRODUCTS CO.,LTD
Company address	Room 701, Building 1, No. 53, Gaotang Road, Tangxia Town, Dongguan City, Guangdong Province
Managing director	Lin Zhibo
Founded	16 August 2005
Product range:	Die-cutting of industrial adhesive products (electronic accessories) and sponge foam products
System certification	ISO9001: 2015、ISO14001:2015、IATF16949: 2016
Current employees	100
Die-cutting capacity	100,000,000 PCS/month
Area of the factory	The self-built industrial park has a total area of 25,819 square meters, which will be moved in in 2020 with 6,000 square meters for self-use.

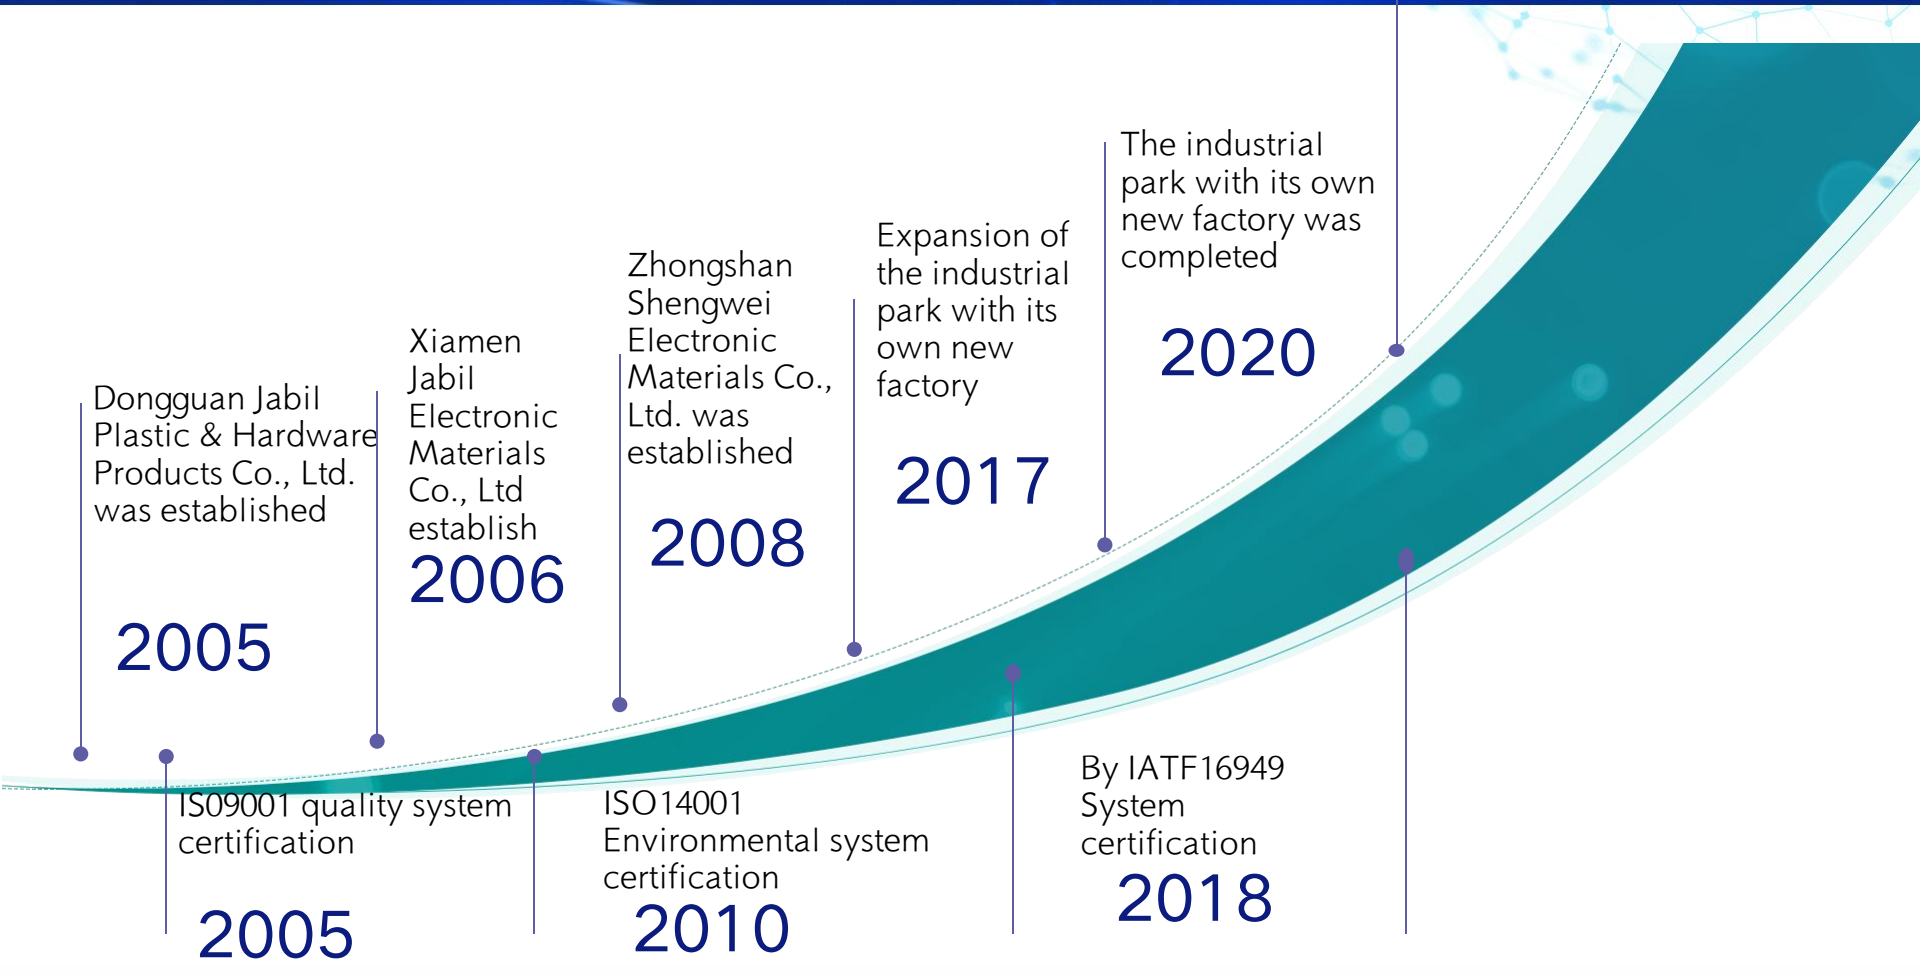

The company was founded in August 2007

The company has a total area of 25,819 square meters of self-built industrial park, moved in 2020, 6,000 square meters for self-use, modern production dust-free workshop, the company has advanced production equipment and testing equipment, strong technical force and advanced production technology, with diversified product production capacity, products are widely used in mobile phones, computers, home appliances, digital equipment, automotive and other electronics industries, set research and development, production and sales of various die-cutting products integrated high-tech enterprises.

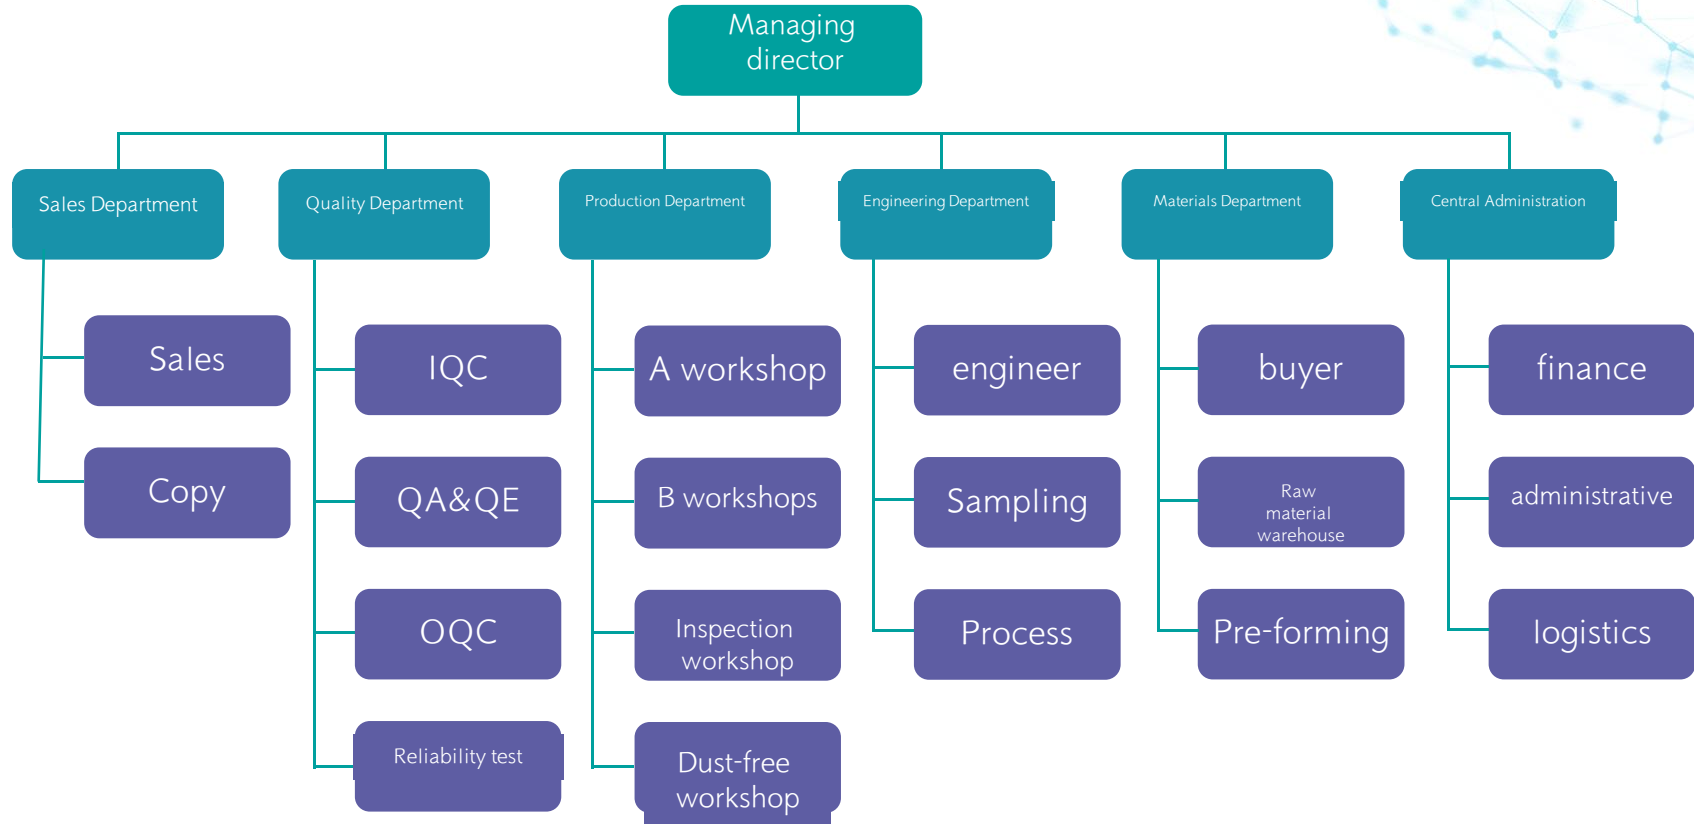

The company has passed the ISO9001:2015, ISO14001:2015, IATF16949:2016 management system certification, constantly standardizes, improves the enterprise management system, and strengthens the core competitiveness and builds the Jabil brand by creating a "learning-oriented, innovative, competitive, and service-oriented" enterprise.

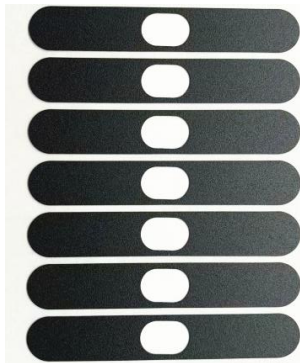

We promise to provide customers with high-quality, economical and comprehensive one-stop precision die-cutting services, and work together with customers for a win-win situation!

Enterprise development history

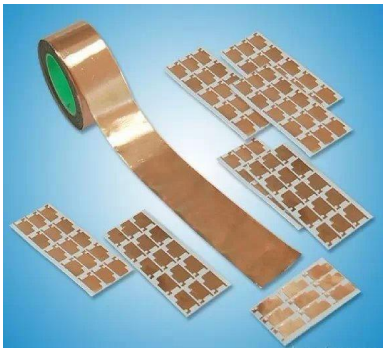

Organizational structure of the factory

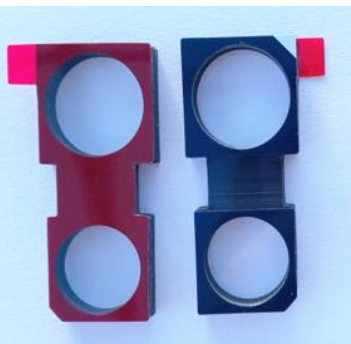

Insulating plastic sheets

It is used in industrial electronics, electrical industry, liquid crystal display and industrial machinery parts, plating mirrors, various signs, printing, membrane switches, nameplates, protective masks, etc

Conductive copper-platinum, aluminum-platinum

It is widely used in transformers, mobile phones, computers, and electronic products shielding

Foam protective film for camera module

It is used in the camera module manufacturing process and shipment to protect the product

CCM protective cover

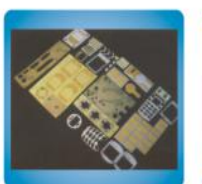

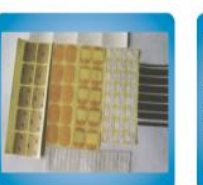

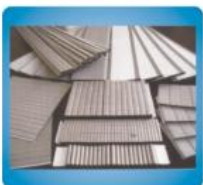

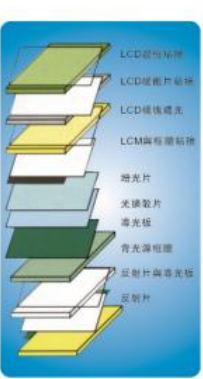

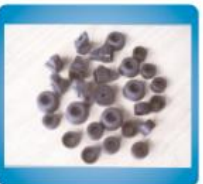

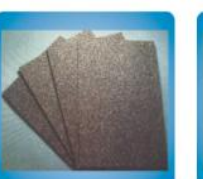

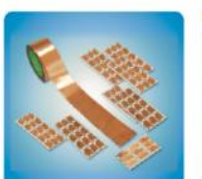

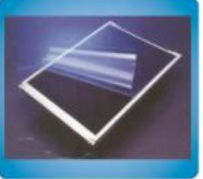

It is used for the protection of the camera module manufacturing process

Power battery weatherstrips

It has excellent sealing performance and corrosion resistance, which can effectively block the entry of external moisture and oxygen, avoid electrolyte leakage, and prevent corrosion reaction inside the battery
